

M.2 SSD general info on back side

MAM2 512 maya M.2 2280 with no external DDR solution delivers all the advantages of flash disk technology with PCIe Gen3x4 interface and is fully compliant with the standard Next Generation Form Factor (NGFF) called M.2 Card Format.

There are a lot of components assembled on a single SSD device. Please handle the drive with care especially when it has any WLCSP (Wafer Level Chip Scale Packaging) components such as PMIC, thermal sensor or load switch. WLCSP is one of the packaging technologies that is widely adopted for making smaller footprints, but any bumps or scratches may damage those ultrasmall parts so gentle handling is strongly recommended.

- ▲ DO NOT DROP SSD
- ▲ INSTALL SSD WITH CARE
- ▲ STORE SSD IN A PROPER PACKAGE

Standards: CE, FCC, VCCI, BSMI
